

**L2** Learn2®  
**Databases**  
Library

In today's Information Technology world, certification and training go hand in hand. Learn.com's Databases can help with the challenge of quickly getting you up to speed on important IT topics and technologies.

Learn to design and administer Microsoft SQL 7.0 and Oracle 8i DBA and PL/SQL with the Databases sub-library. You will learn to install, configure, and manage databases, and you will learn how to retrieve information, optimize query performance, manage data processing, access remote data, and more.

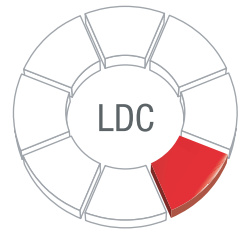

**Courses Included:**

- ▶ Microsoft SQL 7.0 Administration
- ▶ Microsoft SQL 7.0 Database Design
- ▶ Oracle 8i DBA
- ▶ Oracle 8i PL/SQL

# Databases

Library

## Courses

## Lessons

### Networking

- Networking Fundamentals
- Networking Standards
- Network Operation
- Maintaining Networks

### Windows NT

- Implementing NT Server
- Networking NT Server
- Supporting NT Server
- Planning for NT Server
- Installation & Configuration
- Managing Resources
- Monitoring & Optimization-1
- Monitoring & Optimization-2
- Internetworking NT 4 Server
- Configuring Server Resources
- Troubleshooting NT 4 Server

### TCP/IP

- Internetworking with TCP/IP
- TCP/IP Services
- Managing TCP/IP Networks
- TCP/IP Windows NT 4 – Vol 1
- TCP/IP Windows NT 4 – Vol 2
- TCP/IP Windows NT 4 – Vol 3
- TCP/IP Windows NT 4 – Vol 4

### Linux Getting Started

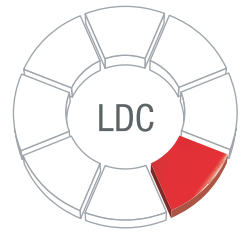

- Getting Started with Linux-1
- Getting Started with Linux-2

### Windows NT

- Implementing NT Server
- Networking NT Server
- Supporting NT Server
- Planning for NT Server
- Installation & Configuration
- Managing Resources
- Monitoring & Optimization-1
- Monitoring & Optimization-2
- Internetworking NT 4 Server
- Configuring Server Resources
- Troubleshooting NT 4 Server

# Databases

Library

## Courses

### Microsoft SQL 7.0 Administration

## Lessons

- Installing and Configuring
- Managing Databases (Part 1)
- Managing Databases (Part 2)

- Automating Tasks and Loading Data
- Replication and Server Performance

### Microsoft SQL 7.0 Database Design

- Introducing SQL Server Architecture
- Retrieving Information
- Implementing Data Integrity

- Optimizing Query Performance
- Managing Data Processing
- Accessing Remote Data

### Oracle 8i DBA

- Database and Built-in Objects
- Database Structures
- Indexes and Constraints
- Loading Oracle Databases and NLS
- Logical Storage Structure: Segments

- Managing Oracle Database Security
- Oracle Database Files
- Startup, Shutdown Processes
- Storage Architecture
- Understanding Storage Allocations

### Oracle 8i PL/SQL

- Basic Operations
- Advanced SQL
- Database Objects and Security
- DML and DDL Statements

- Functions, Tables, and Groups
- Introducing Procedure Builder
- Introduction to RDBMS and SQL \*Plus
